SECRET

SECRET

ULAN-UDE, USSR, THERMAL POWER PLANT

This memorandum is in reply to a request from OCD/IR for identification of a power plant appearing on a [REDACTED] panorama photo of ULAN-UDE. The only other photography, aerial or ground, that could be located was a photo of an oil painting of the Ulan-Ude area, which was obtained from [REDACTED] 25X1C

25X1D

The Bombing Encyclopedia lists three power plants in Ulan-Ude, namely, a municipal plant, a TETS Aircraft Heat and Power Plant, and a TETS Locomotive Heat and Power Plant. Careful comparison of the ground photo with information found in Special Report No. 88, Far East Town Plan Series, proved that the power plant in question was the TETS Locomotive Heat and Power Plant.
